EDUCATION

Master of Computer Application

Rajiv Gandhi Proud yogiki
Vishwavidyalaya Bhopal 2023-2025
CGPA - 6.45/10

Bachelor of Computer Applications

Barkatullah Vishwavidyalaya, Bhopal
2020-2023

Higher Secondary Certificate Examination

Government Hr. Sec. School,
Khatagaon
2020 | 75% | Science Stream

High School Education

Gayatri Vidhya Mandir High School,
Khatagaon
2018 | 75%

SKILLS

FRONTEND DEVELOPMENT

HTML, CSS, Bootstrap, Core UI,
JavaScript, React.js, Next.js

BACKEND DEVELOPMENT

Node.js, Express.js, Nest.js, Java

DATABASE

MongoDB, MySQL

TOOLS

Version Control

- Git & GitHub
- PostMan

SOFT SKILLS

- Problem-solving
- Team collaboration
- Time management
- Discipline

PROFILE

Experienced MERN Stack Developer with a strong background in building scalable, high-performance web applications and optimizing RESTful APIs. Proficient in React.js, Next.js, Node.js, Express.js, and MongoDB, with expertise in JWT-based authentication, Redux state management, and Agile development. Adept at writing clean, maintainable code, improving system performance, and collaborating in cross-functional teams to deliver robust software solutions.

EXPERIENCE

FODUU Web Design India |

Indore | July 2024–Present

- Developed and maintained scalable web applications using the MERN stack.
- Designed and optimized RESTful APIs to ensure seamless backend-to-frontend communication.
- Integrated third-party services, including payment gateways and social media APIs, to enhance application functionality.
- Conducted code reviews, implemented best practices, and reduced bugs, improving code quality and team efficiency.
- Modified existing software systems to enhance performance and add new features.

InfoBeans Foundation

Indore | April 2023–June 2024

Completed a MERN stack training program with hands-on experience in building responsive web apps, designing RESTful APIs, and managing databases (MongoDB, MySQL). Developed real-world projects, enhancing problem-solving and coding skills. Delivered a capstone project showcasing expertise in React.js, Next.js, Node.js, and Express.js. Proficient in Git, GitHub, and Agile methodologies.

PROJECTS

CARMUCHO [LINK](#)

- Designed a user-friendly interface for customers to search, filter, and book cars based on availability, location, and preferences.
- Integrated a real-time chat system using Socket.IO, enabling instant communication between customers and car owners.
- Designed an intuitive chat interface with features like typing indicators, read receipts, and user-specific conversations.
- Implemented real-time notifications for new messages and updates during booking processes.
- Built an admin dashboard for managing car inventory, booking details, and customer interactions.

SCRAP SELLING SYSTEM [LINK](#)

- Designed and developed a full-stack web application using the MERN stack to streamline the selling of scrap materials.
- Implemented user authentication and role-based access control for sellers and admins.
- Built a dynamic dashboard for users to manage scrap listings, view prices, and track transactions in real time.
- Integrated secure payment gateways and optimized RESTful APIs for seamless backend-to-frontend communication.
- Enhanced user experience with a responsive design and real-time notifications for order status and updates.
